Getting Started

Tips and Tricks

PC*MILER Navigator has many great features. To help you get to know them, we have included **Tips and Tricks** at start up. To turn off Tips and Tricks uncheck the '**Show Tips and Tricks**' box. To see more use  and . To close the window click on the cross.

You are now ready for your first trip!

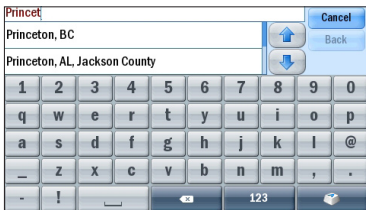

First trip

Setting a destination

PC*MILER Navigator uses GPS satellites to calculate your exact position so you don't have to enter your starting point. Simply enter your destination and PC*MILER Navigator will guide you there, providing detailed dock-to-dock instructions.

- 1 Tap **Menu** > **Destination** > **Address**.
- 2 Enter the city/town name of your destination.
- 3 Select the correct city when it appears in the list below the city field. Scroll down to see more options matching what you have typed.

First Trip

Setting a destination

- 4 Enter the first three or four letters of the street name. Select the correct one when it appears in the list below the street name field.
- 5 Enter the house number and select **Finish**, or just select **Finish** to skip this step.
- 6 A screen will then appear, showing you a map of the route. Select **Drive** to begin navigating your route.

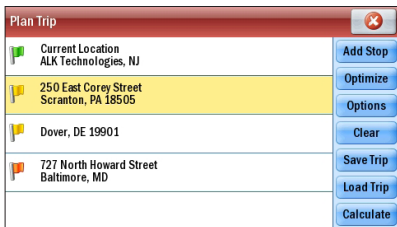

First Trip

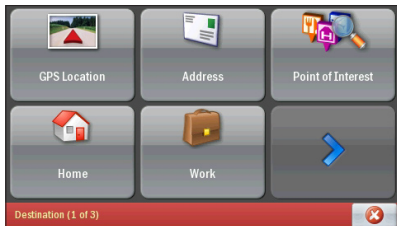

more...

There's more you can do when entering your destination and setting off. Here are some helpful page references for the main User Guide:

Plan a trip with multiple destinations, waypoints or optimize your trip
pages 22, 25 & 52

Set and Save Work and Home addresses for quick and easy destination entry. Select **Menu > Destination**. See pages 39-40.

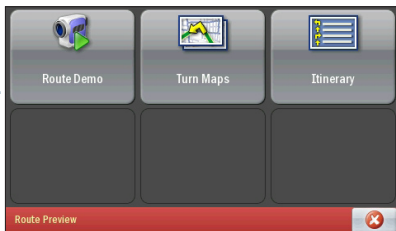

First Trip

Create and manage your favorite destinations (page 41).

Choose to see an itinerary list of your route, map of each turn or a demo of the route (pages 28-30).

PC*MILER Navigator offers a number of standard PC*MILER® commercial truck route types and options. For a full description, see (pages 61-69).

On the move

Your safety

Do not attempt to change the settings, or set a destination on PC*MILER Navigator while you are driving. Ask a passenger to make changes, or pull over safely. Do not leave your device loose in the cab while driving. Ensure it is correctly placed in the windshield mount.

Change the driving view

There are lots of different views to choose from, select

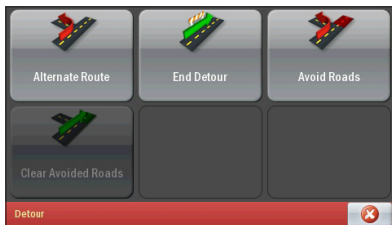

Menu >  > **Driving views**
(pages 35-38).

On the move

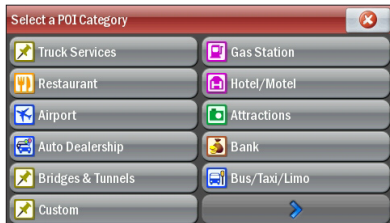

Take a Detour

PC*MILER Navigator can detour from your current itinerary. You can choose an alternate route, or just detour around a section of the route. Select **Menu > Detour** (pages 52-54).

Search for a Point of Interest

If you are running low on fuel, need to find a truck stop or nearby rest area. Select **Menu > Nearby POI** (pages 14-16).
